---

Bill, we are beginning to make arrangements for your visit next Friday, 13 November. Because I am arranging for Larry Lambright to fly in from Lubbock and our folks to drive down from Chicago, knowing your departure time that Friday would facilitate planning. Steve Rounsley (U AZ) bioinformaticist will be with us in Chicago and drive down with us for your seminar. Please advise at your earliest opportunity or feel free to give me a call (214,215.2984) tomorrow if you wish. . Thanks, Ken
