[REDACTED]

Bill,

Attached is the DTR Release Observation with two additional columns - status and recommendation. I would like to have two lines pulled out - Tan GB Res White (originally developed by Johnson) and one line with [REDACTED] as the male parent. General principal only but would not be willing to wage much of an argument.

Look this over and make whatever changes you believe are needed. If anything and everything from the breeding programs are available for a price then I don't have much preference as to the disposition of this material. Do want to be sure you and I are on the same page.

Gary
