---

All,

This Wednesday and Thursday we will have a prospective student, [REDACTED] fellowship. Eng is visiting from Northern Iowa. Eng [REDACTED] and is looking to start in a PhD program in January. [REDACTED] has a stronger background in molecular biology and math than many prospective students but also seems to be sincerely interested in applied breeding (resume attached, other info found on prospective students web site). He will be looking both here and in Lubbock. I was very interested in Eng but I have already accepted a [REDACTED] for January, so Eng is looking for a program to join. Hopefully you will have time to meet with Eng and consider him as a potential Monsanto fellowship student for your program.

Please let me know if you, your students or staff can meet with Eng at any of the times below.

Wednesday, Oct 21, 2009

3:30 PM Arrive: College Station, TX, Flight AA\* 3417 from Dallas

Seth Murray will pick up
