Re: Follow-up Laboratory Inspection Summary Report

Greenhouse-Headhouse, Building 955

Follow-up inspections were conducted on October 2, 2009 for the laboratory facilities located in the building referenced above. These inspections were conducted to verify that Deficiencies have been corrected.

The attached Laboratory Inspection Report lists laboratory safety violations found during the initial inspection and the date each were corrected. *Please note that only items identified as Deficiencies were verified during re-inspection*. Items of Concern are expected to be corrected expediently at the discretion of the principle investigator. Items listed as Information are meant to provide information that can be used to make the lab safer for personnel and/or emergency responders.

Deficiencies noted in the initial inspection report have been corrected. The inspection reports have been updated accordingly. "Corrected Dates" will appear on those deficiencies that have been corrected.

Thank you for your efforts in ensuring a safe laboratory environment for Texas A&M University faculty, staff, students, and visitors.
