Bill,  
No problem, I will work around it, I can't work with all of it at once and we can't plant it all at once! Send it as soon as you can, however, make sure you include everything you need to or there is no need to send it at all. I could receive it on the 20th. or 21st. and still have it in Puerto Rico in plenty of time.  
I thank you for the update,  
Jim

Jim:

What is the latest date I can get you the seed for PR?

I've got a student who didn't realize we have to get seed for some PIs from Griffin and we'd like to request that. I expect we'll have the seed by next Monday and could have it to you sometime late next week. Will that work? If not, what is the latest date?

Regards,

Bill
