Hi John,

Good comment. We set up the MoU to have the executives that 'supervise' the organizational representatives (Karl and Gregg's Chief Exec, Fred's Dean, your dean, Toni's director, etc).

Jason is the lead for the DARPA engagement work, but Todd is still the lead for international stakeholder/community engagement strategy.

Structurally, does this make sense? We can bring this up at the next Steering Committee if desired.

Cheers

rs

**Subject:** Re: MoU Routing

One other comment here - as the engagement is being organized through CNR (Delborne), may need a signature from that Dean as well?

John

Hi NWRC, TAMU, and NCSU Partners,

The MoU signature routing is being amended. Karl checked in with Island Conservation CEO, Karen Poiani (copied), and found she will be out of town starting mid-day tomorrow. As such, I have sent the stack of MOUs to Santa Cruz today for delivery her signatures tomorrow.

The reason for this email is to ask you all to check in with Director Larry Clark, Dean Green, Dean William Ditto, and Dean Richard Linton regarding availability next week for obtaining their signatures. I will work with you to get the signatories' schedules into consideration of this routing process on the US side of the agreement. Of note is my schedule. I will be in Australia and New Zealand for several months leaving April 27<sup>th</sup>.

Attached for your convenience is the final copy of the MOU sent for signatures and the cover letter for clarity.

With Gratitude,  
Royden
