Hi Patti,

My name is Royden Saah and I coordinate the Island Mouse project with which John Godwin, Fred (copied), Jason, and Todd are all involved.

Fred mentioned that you are using Base Camp to coordinate aspects of the GES. Could we speak sometime soon. I am looking at two systems (BaseCamp and Trello) and would like to speak with you and a colleague of mine who uses Trello and compare them a bit by users of the systems. I estimate the call to be ~30 min, so if this seems doable, please let me know.

Many Thanks,
Royden

Subject: Re: [ges] REMINDER-- Colloquium tomorrow

Hey guys! I left my umbrella behind the chair right beside the door at the colloquium today. It is a clear, bubble style umbrella. If anyone goes by that room for whatever reason, would you mind grabbing it for me and I will get it from you sometime?

Thanks, and it was great to meet you all today.

If anyone has tape they could bring for the posters that would be very helpful!

Thanks!
Karina
